Accessibility on www.helpingangelsca.org.uk

www.helpingangelsca.org.uk makes UserWay's web accessibility Widget available which is powered by a dedicated accessibility server. The software allows www.helpingangelsca.org.uk to improve its compliance with the Web Content Accessibility Guidelines (WCAG 2.1).

We want as many people as possible to be able to use this website. For example, that means you should be able to:

- change colours, contrast levels and fonts
- zoom in up to 300% without the text spilling off the screen
- navigate most of the website using just a keyboard
- navigate most of the website using speech recognition software
- listen to most of the website using a screen reader (including the most recent versions of JAWS, NVDA and VoiceOver)

We've also made the website text as simple as possible to understand. [AbilityNet](#) has advice on making your device easier to use if you have a disability.
